- 25X1 1. The forthcoming grain harvest in Rumania is expected be excellent. A much higher production is expected than in previous years as far as both wheat and corn are concerned.
2. Threshing committees have already been formed, since the grain will be turned over to the authorities this year immediately after it is threshed, in order to forestall any attempts at evasion of regulations by the peasants. They are obligated to turn in the grain at a price of 3 lei per kilogram, whereas bread sold by the State costs 120 lei per kilogram.
